PERMALIGHT® 90° Aluminum Stair Nosing (silver-color anodized) with photoluminescent, anti-slip gritty aluminum strip and black, anti-slip gritty insert. Floor-suitability tested by Underwriters Laboratories, Inc. 

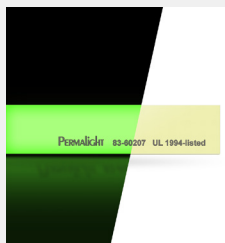

PERMALIGHT® Photoluminescent Anti-Slip Tape with self-adhesive backing. Slightly structured anti-slip surface. Floor-suitability tested by Underwriters Laboratories, Inc.

PERMALIGHT® Aluminum Strip with foamy adhesive backing. The strip is a durable, semi-stiff metal. Floor suitability tested by Underwriters Laboratories, Inc. 

Handrail Marking, **PERMALIGHT® Polyester Thin Film**, adhesive-backed: conforms well to flat and round surfaces.

Floor-mounted Perimeter Demarcation Line: Use either our photoluminescent **PERMALIGHT® Aluminum Strip** (shown here) or our **PERMALIGHT® Anti-Slip Tape** (both floor-suitability tested by Underwriters Laboratories, Inc.) 

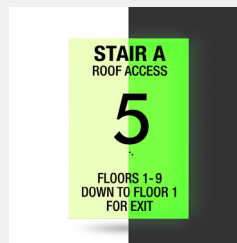

Wall-mounted Perimeter Demarcation Line: Use either our **PERMALIGHT® Photoluminescent Polyester Thin Film** (shown here) or our **PERMALIGHT® Aluminum Strip**. 

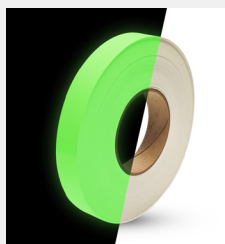

PERMALIGHT® Photoluminescent/Contrast Black Obstacle Marking

- Tape, adhesive-backed
- Aluminum, adhesive-backed durable, semi-stiff metal

PERMALIGHT® Photoluminescent Stairway/Floor Identification Sign, available with raised text and braille. 

Door Frame and Push Bar Markings: **PERMALIGHT® Polyester Thin Film**, adhesive-backed. 

PERMALIGHT® Photoluminescent Emergency Exit Symbol Signs and **PERMALIGHT® Directional Signs**, made from durable aluminum, self-adhesive.
